Rationale

Crayke CofE Primary School is a Christian school. Our ethos and the values of Friendship, Respect, Forgiveness and Determination underpin this policy.

Aims

To create a smoke-free school

Objectives

- To provide a smoke-free school environment for everyone
- To provide young people with a consistent message regarding tobacco use and provide appropriate role models. Introduction
- Smoking is the single most preventable cause of premature death and ill health in the UK
 - Second-hand Smoke – “breathing other people’s tobacco smoke” causes at least 1,000 people to die a year. It has been shown to cause lung cancer, heart disease and cause the onset of asthma, chest and ear infections and cot death in children. It also leads to over 50 children being admitted to hospital per day, 80% of smokers take up the habit as teenagers with 450 children starting smoking every day (ASH)
- The Government’s White Paper ‘Choosing health – making healthy choices’, identifies plans to place restrictions on smoking within the workplace
- The school under the Health and Safety at Work Act (1974) has a duty of care to provide a healthy work environment
- Everyone has the right to a smoke-free environment
- Schools have a major role to play in health education and prevention
- Young people need to receive consistent messages and require non-smoking role models within the school. It has been shown that the biggest factor affecting youth smoking is prevalence of adult smoking and young people’s exposure to seeing smoking (ASH 2004)
